

# Bubble Strings

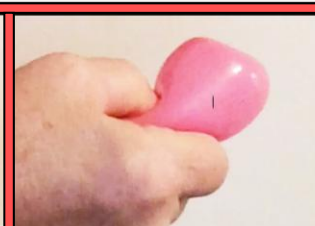

**Inflate a 260 balloon to about 10"**

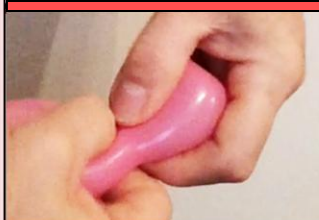

**Hold your finger against the nozzle.**

**Push the nozzle into the balloon.**

**With the other hand grab hold of the nozzle through the balloon and then pull your finger out of the balloon.**

**Take hold of the top of the balloon whilst keeping hold of the lip with the other hand.**

**Turn the top of the balloon just above the nozzle.**

**This is where the nozzle is.**

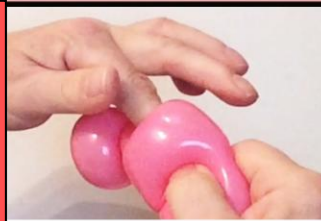

**Make two small bubbles.**

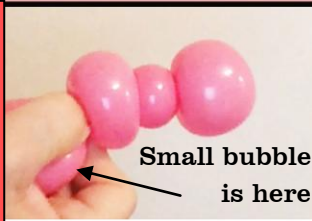

**Push the second bubble down into the balloon**

\*\*\*

**Continue pushing down until both of the small bubbles are inside.**

**Twist the balloon over the top of the second bubble. The balloon will move back down so the first bubble shows.**

**Press the balloon down over the bubble that was trapped.**

**Twist the balloon over it.**

**Make another small bubble.**

**Continue from \*\*\* until you reach the end of the balloon.**

**This is one balloon completed.**

**Start this one with a 1" bubble.**

**Push the bubble into the balloon about an inch down.**

**Make a bubble above it to form a small apple twist.**

**Push this bubble into the balloon again about 1" down.**

**Twist the balloon above it again to form another small apple twist.**

**Push the apple twist inside as before and make another twist. Continue to the end.**
